WHY DOES YOUR SENIOR CAT NEED PREVENTIVE CARE?

Senior cats need regular veterinary care to ensure optimal health and quality of life. Our wellness plan saves you money on the total cost of recommended preventive care and treatments. Best of all, this plan features budget-friendly monthly payments - making it easy to manage your cat's healthcare costs.

Cats are really good at hiding illness

It's a common misconception that cats don't get sick. Senior cats are at greater risk for kidney disease, diabetes, hyperthyroidism, cancer and many other age-related problems - regardless of whether they live indoors or outdoors.

Cats age a lot faster than we do

Aging means more than just gray muzzles and longer naps - illness and disease could be lurking undetected in your senior cat. Physical exams and diagnostic tests are crucial for finding problems not visible to the naked eye.

Prevention is the key to better health

Thanks to advances in veterinary medicine, pets are living longer, healthier lives than ever before. Preventive care can improve your senior cat's quality of life and help you enjoy more healthy years together.
